

Digital Literacy Awareness

Empowering Students in the Digital World

What is Digital Literacy?

The ability to effectively and responsibly use digital technologies to find, understand, create, and communicate information.

Using Digital Devices

Knowing how to operate smartphones, tablets, and computers — including apps, software, and basic troubleshooting.

Accessing & Evaluating Information

Finding reliable information online and distinguishing it from fake or misleading content. Verifying sources before trusting them.

Creating Digital Content

Producing documents, presentations, videos, or graphics responsibly using digital tools for communication or projects.

Communicating Online

Interacting through emails, messaging apps, or social media in a clear, respectful, and professional manner.

Digital Devices & Tools

Safe Internet Practices

Staying safe online is everyone's responsibility. Here are key habits to protect yourself:

Protect Personal Information

Avoid sharing passwords, bank details, or your home address online. Keep personal data private to prevent identity theft.

Use Strong Passwords

Create passwords with letters, numbers, and symbols. Change them regularly and never reuse the same password across accounts.

Think Before You Click

Avoid unknown links, pop-ups, or suspicious downloads. These could contain viruses or phishing scams.

Be Careful on Social Media

Adjust your privacy settings, connect only with trusted people, and avoid oversharing personal details or photos.

Email Etiquette

Professional communication builds trust and respect. Follow these email best practices:

Use a Clear Subject Line

The subject line should summarize the purpose of your email so the recipient understands the topic at a glance.

Start with a Proper Greeting

Use formal greetings like "Dear [Name]" or "Hello [Name]" to show respect and professionalism.

Keep Emails Concise and Clear

Be direct and polite, avoiding unnecessary details. Clear emails save time and prevent confusion.

Use Professional Language

Avoid slang, emojis, or all caps. Maintain a respectful and formal tone throughout your message.
